

CARE TIPS:

KEEP YOUR VEHICLE LOOKING GREAT
AFTER THE DETAIL

INTERIOR:

- If you don't want your car's interior to look and smell like a gym locker, evaluate what stays in the car and what doesn't.
- Wipe or kick off your shoes before entering. Just like at home.
- If you have a dog, invest in a draped over seat cover. One that keeps the hair in one place.

EXTERIOR:

- Wash exterior with clean synthetic lambswool mitt. Use wash & wax soap. Do not use degreaser or dish soap. This can remove or dull wax.
- Dry vehicle with synthetic leather chamois. Dampen and wring out chamois before use. If you use waterblade, clean edge often.
- If you drop any item used to wash or dry, do NOT use it until it's been thoroughly cleaned.
- If you use a car wash, only use touchless and do not select any pre soak, bug removal or degreasing modes. Consult your detail shop for help or advise removing difficult things
